4. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

PATENT-IN-SUIT

7. Plaintiff is the assignee of all right, title and interest in United States Patent No. 9,125,079 (the “’079 Patent”); (the “Patent-in-Suit”); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

The ’079 Patent

8. The ’079 Patent is entitled “Programmable communicator,” and issued 9/1/2015. The application leading to the ’079 Patent was filed on 8/8/2014. A true and correct copy of the ’079 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

9. The ’079 Patent is valid and enforceable.

COUNT 1: INFRINGEMENT OF THE ’079 PATENT

10. Plaintiff incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant has been and continues to directly infringe one or more claims of the ’079 Patent in at least this District by making, using, offering to sell, selling and/or importing, without limitation, at least the Defendant products identified in the charts incorporated into this Count below (among the “Exemplary Defendant Products”) that

infringe at least the exemplary claims of the '079 Patent also identified in the charts incorporated into this Count below (the "Exemplary '079 Patent Claims") literally or by the doctrine of equivalents. On information and belief, numerous other devices that infringe the claims of the '079 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. Defendant also has and continues to directly infringe, literally or under the doctrine of equivalents, the Exemplary '079 Patent Claims, by having its employees internally test and use these Exemplary Products.

13. The service of this Complaint upon Defendant constitutes actual knowledge of infringement as alleged here.

14. Despite such actual knowledge, Defendant continues to make, use, test, sell, offer for sale, market, and/or import into the United States, products that infringe the '079 Patent. On information and belief, Defendant has also continued to sell the Exemplary Defendant Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '079 Patent. Thus, on information and belief, Defendant is contributing to and/or inducing the infringement of the '079 Patent.

15. **Induced Infringement.** Defendant actively, knowingly, and intentionally has been and continues to induce infringement of the '079 Patent, literally or by the doctrine of equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '079 Patent.

16. **Contributory Infringement.** Defendant actively, knowingly, and intentionally has been and continues materially contribute to their own customers' infringement of the '079

Patent, literally or by the doctrine of equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '079 Patent. Moreover, the Exemplary Defendant Products are not a staple article of commerce suitable for substantial noninfringing use.

17. Exhibit 2 includes charts comparing the Exemplary '079 Patent Claims to the Exemplary Defendant Products. As set forth in these charts, the Exemplary Defendant Products practice the technology claimed by the '079 Patent. Accordingly, the Exemplary Defendant Products incorporated in these charts satisfy all elements of the Exemplary '079 Patent Claims.

18. Plaintiff therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

19. Plaintiff is entitled to recover damages adequate to compensate for Defendant's infringement.
